

## Monoclonal mouse anti-human fatty acid binding protein (FABP)

### Product Summary

**MAbs:**

5B5, 10E1

New MAbs: 22, 25, 30, 31

Hybridoma clones have been derived from hybridization of Sp2/0 myeloma cells with spleen cells of Balb/c mice immunized with human heart FABP.

**Specificity:**

Human heart FABP

**MAb Isotypes:**

IgG1 for MAbs 5B5, 10E1, 22, 25, 30, 31 IgG2b for MAbs

**Applications:**

Human heart fatty acid binding protein immunoassay and immunoaffinity purification. All MAbs are working in ELISA.

We recommend using following pairs of antibodies for sandwich immunoassay (capture-detection):

10E1 - 5B5, 22 - 25

MAbs 22, 30 and 31 are recommended for use in Western blotting.

**Purification:**

Chromatography on protein A Sepharose

**Presentation:**

PBS, pH 7.4, 0.1 % sodium azide (NaN<sub>3</sub>)

**Storage Conditions:**

+ 4 °C

**Material safety note:**

This product is sold as an antibody preparation for research use only. Standard Laboratory Practices should be followed when handling this material.

Contains sodium azide (0.1 %) as preservative. Although the amount of sodium azide is very small appropriate care must be taken when handling this product.
